DEVELOPMENT CO., LTD

ABOUT US

Development Co., Ltd was established in 1998, inheriting and advancing pioneering activities in ophthalmic technology development since 1994. Through relentless efforts, the company quickly solidified its position as a leader in the distribution and transfer of ophthalmic technology in Vietnam. Over nearly 30 years of sustainable growth and development, we are proud to be a trusted partner of major hospitals and eye care centers nationwide, contributing to enhancing the quality of eye health care for the community.

With extensive experience in distributing products such as phacoemulsification and LASIK surgical systems, intraocular lenses from Alcon, Lenstec, Teleon, diagnostic and treatment systems from TOPCON (Japan). Development Co., Ltd. consistently delivers the best products for patients and the most advanced technologies to hospitals and doctors. Guided by the principle of prioritizing development and patient care, Development Co., Ltd is dedicated to collaborating with its partners—hospitals ranging from basic to advanced ophthalmology expertise. Ophthalmologists have partnered with the company to participate in advanced training programs and become acquainted with new technologies, both domestically and internationally.

DEVELOPMENT CO., LTD

WELCOME MESSAGE

As the direct distributor of ophthalmic products in Vietnam for leading global manufacturers, we are committed to providing customers with reliable service quality, product excellence, and the most competitive and appropriate pricing. Additionally, the company offers support programs for doctors to enhance their professional skills both domestically and internationally, enabling them to master advanced techniques in eye examination and treatment. Hundreds of doctors participating in international training programs have contributed significantly to the development of phacoemulsification, retinal surgery, and refractive laser techniques in Vietnam.

Beyond professional activities, Development Co., Ltd. actively engages in charitable initiatives, providing free intraocular lenses and surgical equipment for underprivileged patients and policy-beneficiary families in provinces such as Thanh Hoa province, Phu Tho province, Thai Nguyen province, and even extending to international programs in Cambodia. These contributions have solidified the company's reputation as a "golden partner" for over 70 ophthalmology centers nationwide.

Furthermore, Development Co., Ltd. directly invests in ophthalmic hospital and clinic systems, including three facilities in Hanoi: Hanoi Hitec Eye Hospital at 51-53 Tran Nhan Tong St, Hitec Eye Hospital at 55 Ham Long St, and the Eye Specialty Clinic at 480 Thuy Khue St, along with one facility in Ho Chi Minh City: Saigon High-Tech Eye Center at 28 Dong Da, Tan Son Hoa Ward. The company's modern logistics system located in Quang Minh Industrial Zone exemplifies its methodical investment and long-term vision.

DEVELOPMENT CO., LTD

OUR VISION

Enhancing investment in research and development to deliver groundbreaking solutions that improve the quality of eye health care. Promoting collaboration with global doctors and experts to elevate the standards of diagnosis and treatment in Vietnam's ophthalmology sector.

OUR MISSION

"Sustainable Development" and consistently "Accompanying Vietnam's Ophthalmology Sector."

As a pioneer in ophthalmic healthcare services in particular and medical-pharmaceutical services in general

We are committed to bringing a brighter future to individuals and society—Bright eyes, bright trust.

DEVELOPMENT CO., LTD

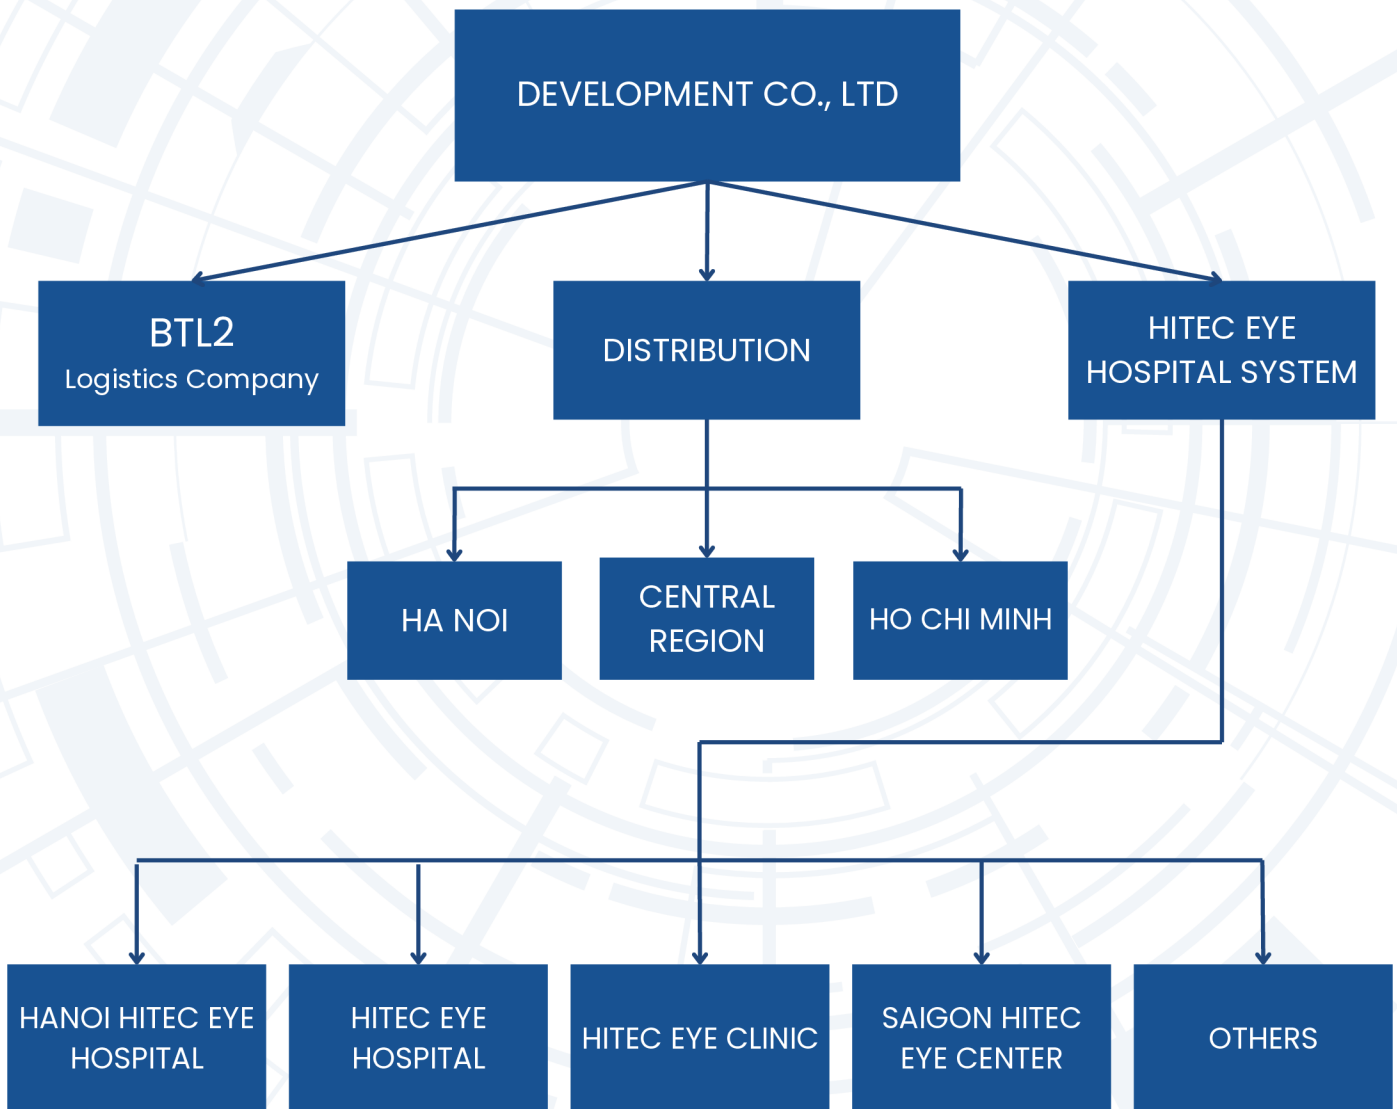

ORGANIZATIONAL STRUCTURE

MR. LE HONG LAM

GENERAL DIRECTOR

Mr. Le Hong Lam is currently the General Director of Development Co., Ltd, a pioneering entity in the distribution of ophthalmic equipment and technology in Vietnam. With over 35 years of experience in management and leadership, he and his team have played a pivotal role in bridging Vietnam's ophthalmology sector with cutting-edge global technologies, fostering sustainable collaboration and harmonized development between international advancements and the domestic ophthalmology industry.

COMPANY HISTORY

2025

The Silk refractive surgery system

In partnership with Johnson & Johnson, the Silk refractive surgery system was implemented at Hitec Eye Hospital - a cutting-edge advancement in vision correction technology.

2024

AI in Ophthalmology

Partnered to implement artificial intelligence (AI) programs for screening retinal diseases, cardiovascular conditions, and central nervous system degenerative disorders.

2023

Establishment in HCMC

Opened the Saigon Hitec Eye Center, heading to be leading in advanced eyecare in the region.

2010 - 2015

Expansion of Operations

Expanded the Hitec Eye Hospital system with units such as Hitec 55 Ham Long, Hitec Clinic N03A in Hanoi, and additional collaborative facilities.

2010

Investment in Logistics

Initiated the construction of a modern logistics system in Vietnam, located at Quang Minh Industrial Park, Hanoi.

2005

Golden Brand Recognition

Honored with the "GOLDEN BRAND OF 2012" and "IMPRESSIVE SLOGAN AND LOGO OF 2012" awards by VATAP Association and the Ministry of Industry and Trade.

1998 - 2000

Establishment and Technological Leadership

- *Founded Development Co., Ltd., specializing in the distribution of Alcon and Topcon ophthalmic equipment and products.*
- *Pioneered the introduction of phacoemulsification technology into Vietnam, with hundreds of Phaco units deployed nationwide.*
- *Established the first private eye hospital in Vietnam at 51-53-55 Tran Nhan Tong, Hanoi.*

DEVELOPMENT CO., LTD

BUSINESS ACTIVITIES

SELECTING NEW PRODUCTS WITH MODERN TECHNOLOGY TO SERVE EACH CUSTOMERS AND PATIENTS

LEADING IN REFRACTIVE PHACO WITH THE NEXT- GENERATION MULTIFOCAL IOLS

Next-generation multifocal intraocular lenses (IOLs) offer an easy solution for cataract patients with high visual demands. The innovative asymmetrical refractive design of these IOLs provides maximum depth of field, delivering excellent visual acuity from distance to near without requiring any additional interventions.

COMPREHENSIVE RETINAL DISEASE SCREENING THROUGH ARTIFICIAL INTELLIGENCE (AI)

Pioneering the application of artificial intelligence (AI) to early detect retinal diseases, cardiovascular conditions, and central nervous system degenerative disorders. This approach enhances diagnostic accuracy, optimizes time efficiency, and significantly improves the quality of services for doctors and healthcare facilities.

PROVIDING ADVANCED TECHNOLOGY SOLUTIONS AND CUTTING-EDGE EQUIPMENT FOR PARTNERS

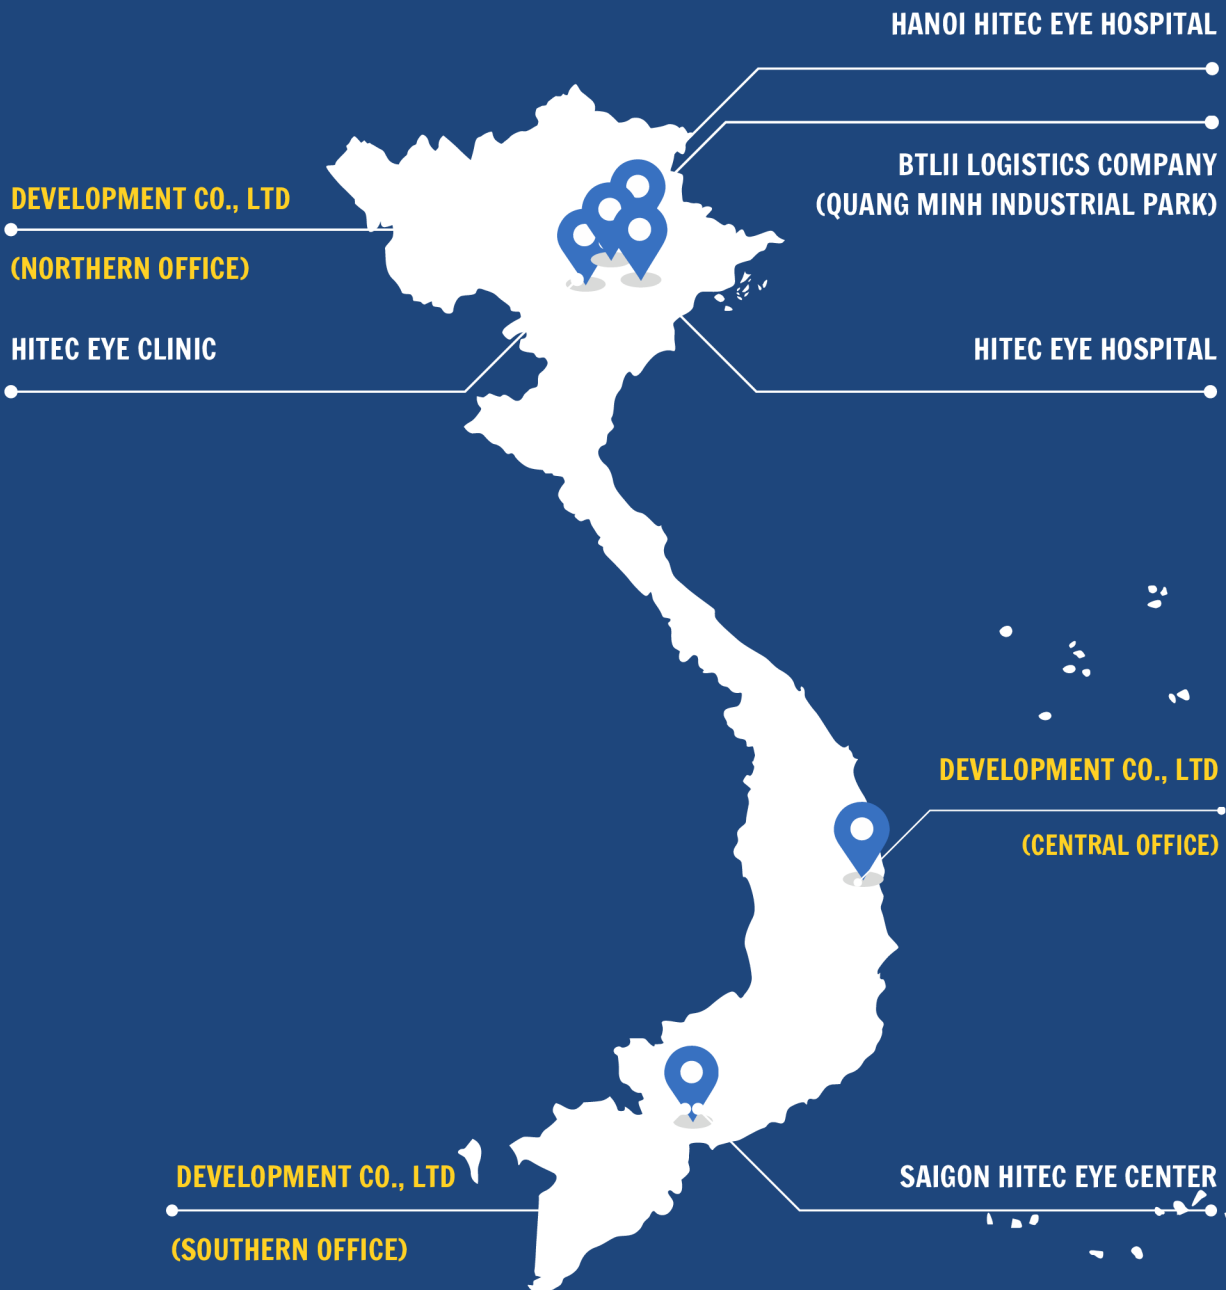

Completing the infrastructure of clinics and hospitals with European-standard equipment, continually improving and upgrading the most advanced products. These innovations help partners optimize operations and meet the highest standards in ophthalmology.
Product Categories: FO, OCT, Optain, Eyewear Frames, Nutritional Supplements,....
